Relevant Courses: Data Structures & Objected Oriented Design, Principles of Software Development, Introduction to Algorithms and Theory of Computing

High School Diploma with Washington State Honors

Jun 2016

Interlake High School, Bellevue, WA

GPA: 4.0, International Baccalaureate Bilingual Diploma, Community Service Award, National AP Scholar

PROFESSIONAL EXPERIENCE

Software Engineer Intern – USC IT Services, Los Angeles, CA Since August 2018

- First intern in USC ITS' internship program – pitched project ideas to improve the student course planning experience and build an open API for courses and class schedules
- Creating project plan & proof of concept for an API management platform with 25 API's
- Assisting in development of a strong internship program for USC students

Product Marketing Intern – KenSci, Seattle, WA

May 2017 – Jul 2017

- Conducted market research, focusing on the strengths, weaknesses, and strategies of 20 competitors
- Developed case studies and pre-sales tools in collaboration with engineering and sales teams

PROJECTS

128 Units, a website to search USC classes and create course plans (*built on MERN stack*) Since May 2018

- Developed Node.js scripts to scrape USC's course catalogue and index 11,000 courses
- Designed and built front-end in React, using various libraries & bundling code with Webpack
- Built user login and saving functionality in Node.js and Express & deployed application to Heroku

QueueSC, a website to create and join lines for food, tutoring, and more

Mar 2018 – Apr 2018

- Wrote extensive documentation detailing project features, test cases and design
- Designed user interface in Sketch and built interactive webpages in JavaScript

ORGANIZATIONS

Spark SC – USC's Leading Entrepreneurship Organization Since Jan 2017

President since Dec 2017, previously Project Manager (May-Dec 2017), Board Member

- Leading a high-impact organization and its executive team, driving organization strategy
- Kept 40 members highly engaged through internal events, retreats, and a culture of high ownership
- Oversaw funding, timeline, and metrics of 10 projects with 30 events, totaling a \$20k budget
- Implemented the first 'Spark Day' – an internal event to improve our organization (~75% attendance)
- Organized 2 three-round recruitment cycles, totaling 350 applicants and a ~5% acceptance rate

USC Innovation & Entrepreneurship Assembly

Since July 2018

- Founded the Entrepreneurship Involvement Fair, featuring 12 organizations & 100+ expected attendees
- Creating the IEA to increase potential impact and opportunities for member organizations

SKILLS

Programming: C++, Java, Git, HTML/CSS, JavaScript, React, Node.js, SQL, Express, Bootstrap, MongoDB
